Market Segment:	Individual	

- 1 Use this Exhibit for both Individual and Small Group Market Plans. A separate Exhibit should be provided for Individual and Small Group filings.
- 2 Market segment refers to Individual (which includes Catastrophic) or Small Group.
- 3 The requested percentage rate change reflects the expected change in premium rates that would apply to the contract holder (or member for Small Group business) on that contract holder's next rate change date for each contract holder within the indicated combination of metal level, rating region
- 4 The "Product Street Name" is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/metal level when communicating with DFS). A separate row is to be used for each combination of metal level, rating region and product name.
- 5 The effective date is the earliest date that the proposed new rate would become effective if approved. The Effective Date for Individual is 1/1/2024. Effective Dates for Small Group are 1/1/2024, 4/1/2024, 7/1/2024 and 10/1/2024.
- If the percentage changes (lowest and highest and weighted average) are identical for all the rating regions, then separate rows by rating region need not be used, and "All Regions" can be shown in the Rating Region column. If the rate change range information differs by rating region, then separate rows by rating region need not be used, and "All Regions" can be shown in the Rating Region column. If the rate change range information differs by rating region, then separate rows by rating region names used on this exhibit are to use the standard rating region names developed by DFS (e.g., Albany Area, Buffalo Area, etc.)
- 7 The "requested rate change" includes the impact of any riders (such as: age 29, domestic partner, family planning, pediatric dental, etc.).
- 8 "Lowest" should be the smallest percentage change that could affect any contract holder due to the submitted rate filing with that metal level and rating region, including any applicable riders.
- 9 "Highest" should be the largest percentage change that could affect any contract holder due to the submitted rate filing with that metal level and rating region, including any applicable riders.
- 10 The weighted average percentage should be developed based on annualized premium volume or membership for that metal level, and rating region, including any applicable riders.
- 11 Percentage Rate Changes should be calculated using membership as of 3/31/2023.
- 12 This exhibit must be submitted as an Excel file and as a PDF file.
